## Item 4: Advisory Business

---

Portfolio Solutions® (“we”, “us”, “our”, “Firm” and “Portfolio Solutions®”) is an investment advisor registered with the SEC since 1999. Liberty PS Holdings, LLC owns 100% of Portfolio Solutions, LLC, and is the sole voting member and sole manager of Portfolio Solutions, LLC. Liberty PS Holdings, LLC is 100% owned by the James S. Gladney 1992 Revocable Trust which is 100% owned by James S. Gladney. James S. Gladney is the Chairman and Chief Executive Officer of Portfolio Solutions, LLC.

### Services Offered

We provide our clients with a full spectrum of financial advisory services. These services, which primarily include Wealth Planning and Investment Guidance, are detailed below. For all service levels, Portfolio Solutions® acts in the capacity of a fiduciary and, as such, is obligated to place the interests of our clients first at all times.

### Wealth Planning

Wealth Planning provides for a full range of financial services by a CERTIFIED FINANCIAL PLANNER™ professional (CFP®) who can act on your behalf by coordinating, as applicable for each client, financial and investment advice, tax planning, retirement planning, college savings planning, elder care planning, insurance planning, business succession planning, gifting and charitable trust planning, and legacy and estate planning. The scope of the engagement and client priorities are determined jointly by the client and Portfolio Solutions® and may be limited in scope in some cases based on the individual needs of each client.

Wealth Planning services also include the creation of a personalized financial plan to help clients achieve their long-term financial goals and objectives. The plan is reviewed and updated annually. Clients are also given comprehensive guidance on their overall investment strategy along with a review of their investment objectives on a periodic basis. These services are provided in a highly-personalized manner by phone or video communication and may include in-person meetings for clients who wish to communicate beyond phone and video methods.

Wealth Planning clients also receive all services provided to Investment Guidance clients.

### Investment Guidance

Investment Guidance services include portfolio construction and ongoing investment management using primarily low-cost, passive index investing strategies. A Portfolio Solutions® financial advisor works with clients to gain an understanding of their risk tolerance, investment objectives, and investment preferences in order to advise them on an appropriate asset allocation and investment strategy. These are reviewed and updated as needed at least annually.

Portfolio Solutions® specializes in managing low-cost, and globally-diversified investment portfolios. We build portfolios using primarily index stock and bond mutual funds, and exchange traded funds (ETFs). Index funds are mutual funds or ETFs that aim to achieve

the same return as a particular market index or basket of assets.

We typically manage accounts on a discretionary basis, which means our clients give us the authority to buy and sell securities for their accounts at our discretion.

We monitor accounts daily, manage cash flow, rebalance as needed, and employ tax loss harvesting and required minimum distribution strategies where appropriate. The client's investment strategy is determined by the client and Portfolio Solutions® on a collaborative basis. Our recommendations may be limited if a client does not provide us with accurate and complete information or fails to keep us informed of any changes to the client's investment objectives, general financial situation or restrictions.

### **Sub-Advisory Services**

Portfolio Solutions® is a sub-advisor to other registered investment advisors and provides discretionary portfolio management services on a continuous basis to other firms' advisory clients, including to clients of its affiliated advisor, Liberty Wealth Advisors, LLC ("LWA"). Generally, we will place orders for the execution of all purchase and sale transactions for clients. Portfolio Solutions® provides sub-advisory services to client portfolios consistent with the client's stated goals, objectives and risk tolerance. Portfolio Solutions® may also utilize LWA as a sub-advisor.

### **Donor Advised Funds**

Portfolio Solutions® offers a donor-advised fund program to help clients with charitable giving and financial goals. Portfolio Solutions® can facilitate the opening and management of a donor-advised fund account with Schwab Charitable™, an independent nonprofit organization. A donor-advised fund account allows clients to contribute cash or other assets to a charitable account to realize potential tax benefits and then support their favorite charities over time. The minimum contribution is \$5,000.

Clients will pay administrative fees to Schwab Charitable™. Clients with an account size of \$250,000 or more may designate Portfolio Solutions® to manage their donor-advised fund account and will pay a separate advisory fee charged by Portfolio Solutions®.

Clients who choose to open a donor - advised fund account can open an account with Schwab Charitable™ that governs the relationship through a separate custodial account. More information concerning Schwab Charitable™ and its business practices can be found at [schwabcharitable.org](http://schwabcharitable.org). Portfolio Solutions® receives no compensation or benefits from Schwab Charitable™ related to this arrangement.

Portfolio Solutions® does not provide tax, legal or accounting advice. Before engaging in any transaction, you should consult your own insurance provider, tax, legal, and accounting advisors on how annuity taxation applies to your individual situation.

## **Educational Savings Plan**

From time to time, Portfolio Solutions® may offer investment management services through my529 (formerly Utah Educational Savings Plan). These services can help create a portfolio that meets our client's objectives and our investing style, while balancing potential return and risk and reducing overall costs for our clients. Investment choices are limited to availability of funds in the my529 plan.

my529 is a 529 plan legally known as a "qualified tuition program." my529 is designed as a tax-advantaged vehicle to encourage saving for the future qualified higher education expenses of a beneficiary. Clients should consider the tax ramifications of investing in 529 plans in a state other than where they reside. Portfolio Solutions® earns its customary fee based on the value of the client's assets held within the 529 plan.

Clients who choose to open a my529 sign an individual account agreement with my529 that governs the relationship through a separate custodial account. Portfolio Solutions® remains the advisor on the account. More information concerning my529 and its business practices is contained in the program description which can be found at [my529.org](http://my529.org). Any fees my529 charges are in addition to the advisory fee charged by Portfolio Solutions® on those assets. Portfolio Solutions® receives no compensation or benefits from my529 related to this arrangement.

Portfolio Solutions® does not provide tax, legal or accounting advice. Before engaging in any transaction, you should consult your own insurance provider, tax, legal, and accounting advisors on how annuity taxation applies to your individual situation.

## **Variable Annuity Investment Service**

From time to time, Portfolio Solutions® may offer investment management services through The Vanguard Group, Inc. ("Vanguard") relating to existing variable annuities a client may already hold. These services can help create a portfolio that meets our clients' objectives utilizing our investment style, while balancing potential return and risk and reducing overall costs for our clients. Investment choices are limited to availability of funds in Vanguard's Variable Annuity program. The assets in a variable annuity grow tax-deferred.

Clients who chose to open a variable annuity with Vanguard will sign an application to establish a Vanguard Variable Annuity. Clients will pay an operating expense on the Vanguard mutual funds in addition to the advisory fee charged by Portfolio Solutions® on those assets. More information concerning Vanguard Variable annuities can be found at [investor.vanguard.com/annuity/variable](http://investor.vanguard.com/annuity/variable). Portfolio Solutions® receives no compensation or benefits from Vanguard related to this arrangement.

The issuers of these variable annuities are Transamerica Premier Life Insurance Company and, in New York State only, Transamerica Financial Life Insurance Company. The administrative fees and costs of these variable annuities are not associated with investment advisory services offered by Portfolio Solutions®, and Portfolio Solutions®

receives no compensation from Vanguard, Transamerica Premier Life Insurance Company, or Transamerica Financial Life Insurance Company. Portfolio Solutions® earns its customary fee based on the value of the client's assets held within the variable annuity.

Portfolio Solutions® is not involved in the selling and marketing of variable annuities. Portfolio Solutions® is not an annuity advisor and is not licensed to sell insurance products.

Portfolio Solutions® does not provide tax, legal or accounting advice. Before engaging in any transaction, you should consult your own insurance provider, tax, legal, and accounting advisors on how annuity taxation applies to your individual situation.

### **ERISA Clients**

Portfolio Solutions® offers fiduciary services to retirement plan sponsors. Portfolio Solutions® acknowledges that we are a fiduciary and we discharge our duties for the exclusive benefit of plan participants. Portfolio Solutions® discloses information about the services we provide and the compensation we receive for such services in both its Investment Management Agreement (IMA) and in this ADV Part 2A.

### **Tailored Service**

Clients may request restrictions on and customizations to their accounts. Portfolio Solutions® reserves the right to not accept and/or to terminate management of a client account if we feel that the client's-imposed restrictions would not be in the client's best interest or limit or prevent us from meeting or maintaining the client's investment strategy.

Portfolio Solutions® occasionally offers general investment guidance on any investment type held by the client at the start of the advisory relationship. We may also offer guidance regarding additional types of investments held in variable annuity and other types of accounts, if appropriate, to address the individual needs, goals, and objectives of the client or in response to a client inquiry.

We typically do not invest in individual equity securities, except for exchange-traded funds (ETFs) that trade during the day like individual securities. We typically only transact in individual equities when liquidating existing holdings of new client accounts. We typically do not conduct individual fixed income securities transactions except when liquidating existing positions in new client accounts or when creating laddered bond portfolios as disclosed in Item 5.

Portfolio Solutions® generally limits recommendations of open-end mutual funds to no-load funds. Some of the mutual funds we purchase are institutional share class funds with lower costs that are not ordinarily available to the general public.

Quarterly statements and other documentation remind clients that it remains the client's responsibility to inform Portfolio Solutions® promptly if there is ever a change in his/her/their financial situation or investment objectives, or if they wish to impose or modify account restrictions. Portfolio Solutions® will contact or attempt to contact the client at

least annually on these matters. Clients receive timely confirmations and monthly or quarterly statements from a third-party custodian/brokerage firm, which contain a description of all transactions and all account activity.

Portfolio Solutions® makes a secure online portal available to its clients, which clients can access via a user name and password. The portal provides access to historical investment reporting information for all managed accounts, broken down by portfolio as well as by individual account. This information is updated daily. Clients can request additional investment reports if they wish.

### **Wrap Fee Programs**

We do not manage client accounts as part of a wrap or bundled fee program.

### **Assets under Management**

We typically manage client assets on a discretionary basis only, unless otherwise provided for when we perform sub-advisory services for another registered investment advisor. As of December 31, 2019, the total amount of assets under our management was \$1,444,900,440.

## **Item 5: Fees and Compensation**

---

We provide our clients with Wealth Planning and Investment Guidance services regarding their investment accounts according to these fee schedules:

	<b>Wealth Planning</b>
First \$2 Million	<b>0.89%</b>
\$2,000,001 to \$5,000,000	<b>0.70%</b>
\$5,000,001 to \$10,000,000	<b>0.50%</b>
Greater Than \$10 Million	<b>0.40%</b>
Minimum Fee Per Quarter	<b>\$1,675</b>
Minimum Investable Assets	<b>\$750,000</b>

## Investment Guidance

First \$3 Million	<b>0.37%</b>
Greater Than \$3 Million	<b>0.20%</b>
Minimum Fee Per Quarter	<b>\$925</b>
Minimum Investable Assets	<b>\$500,000</b>

Fees are charged and payable quarterly in arrears following the end of each calendar quarter. The fee is based on the daily average value of the assets under management for each client relationship during the quarter.

Fee payments are calculated on a pro-rata basis for new and terminated client accounts. The fee is based on the actual number of days assets were in a clients' account during the calendar quarter.

Portfolio Solutions' clients have their fees deducted from their custodial accounts based on our instruction. Custodians do not verify the accuracy of Portfolio Solutions' fee calculation. Upon termination, we instruct custodians to debit all outstanding unpaid fees. All clients receive statements from custodians either monthly or quarterly. Each custodian's statement shows the deduction of the fee withdrawn directly from our client's account.

Either a client or Portfolio Solutions® may terminate the IMA between the parties upon written notice to the other party. If the IMA is terminated, the current fee will be pro-rated to the written notice date. Portfolio Solutions® will not, unless determined otherwise at the discretion of Portfolio Solutions® and expressly authorized by the client in writing, liquidate any securities in the client's terminated accounts. All securities in the client's accounts on the date of written termination notice will remain in the client's accounts and under custody with their custodian. A client can then contact their custodian directly and self-manage his/her accounts.

We will continue management of the account until an authorized party is verified to our satisfaction and notifies us of client's death or disability and provides alternate instructions.

We do not require fees in advance. On a case by case basis and at its discretion, Portfolio Solutions® may offer fee schedules for legacy or new clients which vary from those above.

### **Fees for Specialized Accounts and Advisory Services – Nuveen Asset Management**

Where appropriate, Portfolio Solutions® engages the services of Nuveen Asset Management (“NAM”) on behalf of clients to provide laddered bond (fixed income) investment management services. Clients who choose to engage NAM sign a separate investment advisory agreement with NAM that governs the relationship through a separate custodial account. Portfolio Solutions® remains the advisor on the account and

NAM acts as a discretionary manager of the laddered bond assets. More information concerning NAM and its business practices is contained in NAM's Disclosure Brochure, which is provided to clients that use NAM.

Clients whose portfolios contain laddered bonds managed by NAM will pay NAM an annual investment advisory fee which varies based on the strategy NAM is hired to provide. For example, the most commonly used NAM strategy is a laddered fixed income strategy, for which NAM charges an annual investment advisory fee of 0.12%, which is assessed in quarterly installments in arrears on the assets managed. Any investment management fees NAM charges are in addition to the advisory fee charged by Portfolio Solutions® on those assets. Portfolio Solutions® receives no compensation or benefits from NAM related to this arrangement.

### **Compensation – Sub-Advisory Services**

Portfolio Solutions® receives a fee for its sub-advisory services, depending on the complexity of the client's financial situation. The Fee is negotiated on a case by case basis.

### **Other Fees and Expenses**

Our portfolio management fees do not include the custodian's fees. Clients typically pay all brokerage commissions (transaction fees), stock transfer fees, and/or other similar charges incurred in connection with transactions in accounts from the assets in the accounts.

In addition, any mutual fund shares and/or ETFs held in a client's account may be subject to fund-related fees and expenses that are described in the prospectus of the mutual fund, 529 plan, variable annuity or ETF. All fees paid to Portfolio Solutions® are separate and distinct from the fees and expenses charged by mutual funds, 529 plans, variable annuities, donor advised funds and ETFs.

### **Other Compensation**

Neither Portfolio Solutions®, nor any person providing investment advice on our behalf, accepts any compensation or revenue in connection with the management of client accounts except for the portfolio management fees charged directly to clients as stated above.

## **Item 6: Performance Based Fees and Side-by-Side Management**

---

Neither Portfolio Solutions® nor any of its employees accept performance-based fees (fees based on a share of capital gains or capital appreciation of the assets of a client).

Portfolio Solutions® does not use a performance-based fee structure because of the potential conflict of interest. Performance-based compensation may create an incentive for the advisor to recommend an investment that may carry a higher degree of risk than is appropriate for the client.

## Item 7: Types of Clients

---

We offer services to individuals, high net worth individuals, trusts, estates, endowments, institutions, individual participants of retirement plans, pension and profit sharing plans, charitable organizations, corporations and other businesses.

Generally, Portfolio Solutions® requires clients to maintain a Client Relationship size of at least \$500,000 for Investment Guidance with Portfolio Management services, and \$750,000 for Wealth Planning with Portfolio Management. If a client withdraws significant funds, we may ask the client to deposit additional funds in order for us to continue to manage the client's accounts. We may aggregate client accounts that have immediate family or business relationships with each other for purposes of calculating the investment management fees. Portfolio Solutions® reserves the right to waive the client relationship account aggregation policy where the circumstances, in our sole discretion, warrant. Under certain circumstances, Portfolio Solutions' fee schedule and minimum account sizes may be negotiable.

## Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

---

### Methods of Analysis and General Investment Strategies

Portfolio Solutions® generally uses diversification in an effort to optimize the risk and potential return of a portfolio. More specifically, we may utilize multiple asset classes, investment styles, market capitalizations, sectors, and regions to provide diversification. Note, however, that diversification alone does not assure a profit nor protect against loss.

Portfolio Solutions' general investment strategy is to seek a total return proportionate with the level of risk the client decides to take. We assist each client in developing an investment plan, which is done by understanding the client's general financial situation, investment objectives, liquidity needs, time horizon, return objective, and risk tolerance, as well as any special considerations and/or restrictions the client chooses to place on the management of the client accounts. Based on this information, we determine the securities that comprise each client's portfolio and then make investment strategy recommendations that are consistent with the client's investment plan.

Portfolio Solutions® offers several different investment strategy ("asset allocation") types for managing client accounts. Based on the client's personal situation, as described in the client's investment plan, we will recommend managing the client's accounts in accordance with one or multiple asset allocation strategies (including funds that are used as funding vehicles for variable annuity contracts, donor – advised funds, and 529 plans).

Client portfolios with similar investment objectives and asset allocation goals may own the same or different securities. Income tax factors also influence Portfolio Solutions' investment decisions. Clients who buy or sell securities on the same day may receive

different prices based on the timing of the transactions during open market hours.

Each portfolio will maintain a target asset allocation. We leverage a rebalancing software system to review client portfolios daily during open market hours to evaluate how closely the actual allocation matches the target allocation. When we consider the variance excessive, we will take appropriate actions (by buying or selling securities) to bring the actual allocation within acceptable range of the target allocation. We refer to this process as “rebalancing.” The process of rebalancing offers a systematic process to buy or sell securities when investment categories (asset classes) vary from their target allocation.

### **Methods of Analysis for Selecting Securities**

In analyzing mutual funds and exchange-traded funds (ETFs), Portfolio Solutions® may use various sources of information, including data provided by Morningstar, Inc., a fund company’s website, and other online and subscription resources as needed. We cannot guarantee that any such strategy or analysis will prove profitable or successful.

### **General Risks of Owning Securities**

Prior to entering into an IMA with Portfolio Solutions®, each client should carefully consider:

- That investing in securities involves risk of loss, which clients should be prepared to bear;
- That securities markets experience varying degrees of volatility;
- That over time, the client’s assets may fluctuate and at any time be worth more or less than the amount invested; and
- That clients should only commit assets that are long-term in nature.

We do not guarantee that any investment strategy will meet its investment objectives or that an account will not suffer losses.

The prices of securities held in client accounts and the income they generate may decline in response to certain events taking place around the world. These include events directly involving the issuers of securities held as underlying assets of mutual funds and ETFs in a client’s account, conditions affecting the general economy, and overall market changes. Other contributing factors include local, regional, or global political, social, or economic instability and governmental or governmental agency responses to economic conditions. Finally, currency, interest rate, and commodity price fluctuations may also affect security prices and income. For additional risk information please see appropriate mutual fund and ETF prospectuses.

### **Risks of Securities**

When investing in mutual funds and ETFs, investors have literally thousands of choices. Most mutual funds and ETFs fall into one of three main categories: money market funds, bond funds (also called “fixed income” funds), and stock funds (also called “equity” funds). Each type has different features and different risks and rewards. Generally, the higher the potential return, the higher the risk of loss.

### ***Exchange-Traded Funds (ETFs)***

An ETF is a type of investment company (usually, an open-end fund or unit investment trust) containing a basket of stocks or bonds that usually tracks a specific index or sector. An ETF is similar to an index fund in that it will primarily invest in securities of companies that are included in a selected market index or that fall into a particular sector. Unlike traditional mutual funds, which can only be redeemed at the end of a trading day, ETFs trade throughout the day on an exchange. Like stock and bond mutual funds, the prices of the underlying securities and the overall market may affect ETF prices. Similarly, factors affecting a particular industry segment may affect ETF prices that track specific sectors. An investment in an ETF could lose money over short or even long periods. You should expect the ETFs share price and total return to fluctuate within a wide range, like the fluctuations of the overall stock market.

### ***Mutual Funds (Open-end Investment Companies)***

A mutual fund is a company that pools money from many investors and invests the money in stocks, bonds, short-term money-market instruments, other securities or assets, or some combination of these investments. The portfolio of the fund consists of the combined holdings it owns. Each share represents an investor's proportionate ownership of the fund's holdings and the income those holdings generate. The price that investors pay for mutual fund shares is the funds per share net asset value (NAV) plus any shareholder fees that the fund imposes. An investment in a mutual fund could lose money over short or even long periods. You should expect the fund's share price and total return to fluctuate within a wide range, like the fluctuations of the overall stock market.

### **Bond Mutual Funds and Laddered Individual Bonds**

A laddered individual bond portfolio is comprised of individual bonds where each bond or series of bonds features strategically staggered maturity dates at regular intervals. As each bond or series of bonds matures, proceeds are used to purchase new bonds to continue the bond ladder, or they are used as income.

Both laddered individual bonds held in a laddered bond portfolio and bond funds generally have higher risks than money market funds, largely because they typically pursue strategies aimed at producing higher returns. Unlike money market funds, the SEC's rules do not restrict bond funds and laddered individual bonds to high quality or short-term investments. Because there are many different types of bonds, bond funds and laddered individual bonds, they can vary dramatically in their risks and rewards. Some of the risks associated with bond funds and laddered individual bonds include:

#### ***Interest Rate Risk***

Interest rate risk refers to the risk that the market value of bonds will go down when interest rates go up. Because of this risk, investors can lose money in any bond fund or laddered individual bond portfolio, if a bond were sold before its maturity date. Interest rate risk applies to investments in insured bonds and U.S. Treasury Bonds. Longer-term bonds and bond funds tend to have higher interest rate risks.

### ***Credit Risk***

Credit risk refers to the risk that companies or other issuers may fail to pay their debts (including the debt owed to holders of their bonds). Consequently, this affects individual bond ladders, mutual funds and exchange-traded funds (ETFs) that hold these bonds. Credit risk is less of a factor in investments including insured bonds or U.S. Treasury Bonds. By contrast, those that invest in the bonds of companies with poor credit ratings generally will be subject to higher risk.

### ***Prepayment Risk***

Issuers may choose to pay off debt earlier than the stated maturity date on a bond. For example, if interest rates fall, a bond issuer may decide to “retire” its debt and issue new bonds that pay a lower rate. When this happens, proceeds from the sale of individual bonds or a bond fund may not be able to be reinvested in an investment with as high a return or yield.

## **Stock Mutual Funds**

A stock fund’s value can rise and fall quickly (and dramatically) over short or even long periods. You should expect a fund’s share price and total return to fluctuate within a wide range. Overall stock market risk poses the greatest potential danger for investors in stock funds. Stock markets tend to move in cycles, with periods of rising prices and periods of falling prices. Stock prices can fluctuate for a broad range of reasons such as the overall state of the economy or demand for particular products or services. Some other risks associated with various types of stock funds include:

### ***Small Cap Funds***

Funds that invest in stocks of small companies involve additional risks. Smaller companies typically have higher risk of failure and are not as established as larger companies. Historically, smaller company stocks have experienced a greater degree of market volatility than the overall market average.

### ***International Funds***

Funds that invest in foreign securities involve special additional risks. International investments are subject to stock market risk as well as additional risks, including currency fluctuation, political instability, country/regional risk, and potential illiquid markets.

### ***Emerging Market Funds***

Emerging market investments involve stock market risk and the same risks as international investments. Investing in emerging markets may accentuate those additional risks.

### ***Real Estate Investment Trust (REIT) Funds***

REIT Funds include REITs within the underlying fund holdings. REITs primarily invest in real estate or real estate-related loans. Equity REITs own real estate

properties, while mortgage REITs hold construction, development, and/or long-term mortgage loans. REIT investments include illiquidity and interest rate risk.

### **Cybersecurity Risk**

Portfolio Solutions® and its service providers are subject to risks associated with a breach in cybersecurity. Cybersecurity is a generic term used to describe the technology, processes and practices designed to protect networks, systems, computers, programs and data from both intentional cyber-attacks and hacking by other computer users as well as unintentional damage or interruption that, in either case, can result in damage or interruption from computer viruses, network failures, computer and telecommunications failures, infiltration by unauthorized persons and security breaches, usage errors by their respective professionals, power outages and catastrophic events such as fires, tornadoes, floods, hurricanes and earthquakes. A cybersecurity breach could expose both Portfolio Solutions® and its client accounts to substantial costs (including, without limitation, those associated with forensic analysis of the origin and scope of the breach, increased and upgraded cybersecurity, identity theft, unauthorized use of proprietary information, litigation, adverse investor reaction, the dissemination of confidential and proprietary information and reputational damage), civil liability as well as regulatory inquiry and/or action.

While Portfolio Solutions® has established a business continuity plan and risk management strategies, systems, policies and procedures to seek to prevent cybersecurity breaches, there are inherent limitations in such plans, strategies, systems, policies and procedures including the possibility that certain risks have not been identified. Furthermore, Portfolio Solutions® cannot control the cybersecurity plans, strategies, systems, policies and procedures put in place by other service providers and/or the issuers in which the clients invest.

### **Business Continuity Risk**

Portfolio Solutions® has established a business continuity plan and risk management strategies, systems, policies and procedures (collectively BCR Plans) to mitigate disruptions in its operations. These include disruptions which may be present during times of pandemic, natural disaster and other circumstances beyond the control of Portfolio Solutions®. Our BCR Plans include preparations to have our personnel operate remotely for extended periods of time, remote storage and backup for all key operating systems and data, review and monitoring of the continuity strategies and procedures of key vendors, and plans for communicating with clients, employees and key vendors during times of crisis. The BCR Plans of Portfolio Solutions® also include reviewing and considering the impacts of these disruptions on its ability to operate financially in a sound manner, manage portfolios, serve clients, and support the health and welfare of its employees.

While Portfolio Solutions® has established BCR Plans to seek to prevent business disruptions, there are inherent limitations in such plans, strategies, systems, policies and procedures including the possibility that certain risks have not been identified. Furthermore, Portfolio Solutions® cannot control the business continuity plans, strategies,

systems, policies and procedures put in place by other service providers and/or the issuers in which the clients invest.

## **Item 9: Disciplinary Information**

---

Portfolio Solutions® does not have any disciplinary information to disclose.

## **Item 10: Other Financial Industry Activities and Affiliations**

---

We do not have any relationships or arrangements with broker/dealers, mutual funds, other investment advisors, or other entities which are related persons that create any material conflict of interest for us in rendering services to our clients.

### **Affiliations – Investment Advisor**

As noted in Item 4, Advisory Business, James S. Gladney indirectly owns and controls 100% of Portfolio Solutions®. Mr. Gladney is also the indirect majority owner and controls an affiliated SEC registered investment advisory firm, Liberty Wealth Advisors, LLC.

### **Affiliations – Certified Public Accountant**

John R. Bergmann is a Certified Public Accountant but does not practice public accounting or accounting outside of his role at the Firm.

## **Item 11: Code of Ethics, Participation or Interest in Client Transactions, Personal Trading**

---

### **Code of Ethics**

Portfolio Solutions® has a fiduciary duty to provide our clients with the highest level of trust and fair dealing. As part of our fiduciary duty, we place the interests of our clients ahead of the interests of Portfolio Solutions® and our personnel. Our personnel are required to conduct themselves with integrity at all times and follow the principles and policies detailed in our Code of Ethics.

We address specific conflicts of interest that either we have identified or that could likely arise. Our personnel are required to follow clear guidelines outlined in the Code of Ethics including those related to gifts and entertainment, other business activities, and adherence to applicable state and federal securities laws.

Portfolio Solutions® prohibits all personnel from acting upon any material, non-public information, as defined under federal securities laws and our Code of Ethics insider trading policy.

Portfolio Solutions® does not recommend securities in which there is a material financial interest to us or any related person of Portfolio Solutions®.

Portfolio Solutions® will provide a complete copy of the Code of Ethics to any client or prospective client upon request.

### **Personal Trading Practices**

All Portfolio Solutions® personnel are subject to personal trading policies governed by the Code of Ethics. Portfolio Solutions® and our personnel may purchase or sell securities for themselves, regardless of whether the transaction would be appropriate for a client account. Portfolio Solutions® and our personnel may purchase or sell securities for themselves that we also recommend to clients. In order to avoid potential conflicts of interest with clients, we require all personnel to obtain written approval by our Chief Compliance Officer (“CCO”) before investing in an initial public offering (“IPO”) or private placement.

## **Item 12: Brokerage Practices**

---

### **Research and Other Soft Dollar Benefits**

Portfolio Solutions® does not receive formal soft dollar benefits from broker/dealers in connection with client securities transactions. See disclosure below in “Directed Brokerage and Other Economic Benefits”.

### **Brokerage for Client Referrals**

Portfolio Solutions® does not receive client referrals, compensation or revenue from any broker/dealer in exchange for using that broker/dealer.

### **Directed Brokerage and Other Economic Benefits**

If the client requests Portfolio Solutions® to arrange for the execution of securities brokerage transactions for the client’s account, we shall direct such transactions through broker/dealers that Portfolio Solutions® reasonably believes will provide best execution. We shall periodically and systematically review our policies and procedures regarding recommending broker/dealers to our client in light of its duty to obtain best execution.

Portfolio Solutions® considers several factors in recommending broker/dealers to clients, such as ease of use, reputation, service execution, pricing and financial strength. Portfolio Solutions® may also take into consideration the availability of the products and services received or offered (detailed below). In most cases Portfolio Solutions® recommends that clients have their brokerage executed and custody their accounts at either Charles Schwab & Co., Inc. or TD Ameritrade, Inc. and in such cases client trading will be conducted at these firms respectively.

Certain broker/dealers provide us with access to institutional trading which is typically not available to retail investors. These services generally are available to independent investment advisors on an unsolicited basis, at no charge.

Portfolio Solutions® may receive from broker/dealers, at no cost, products and services enabling us to better monitor client accounts maintained at the broker/dealer and intended to help us manage and further develop our business enterprise. Many of these services

generally may be used to service all or a substantial number of client accounts, including client accounts not maintained at broker/dealers. Portfolio Solutions® may receive this support without cost because of the investment management services rendered to clients that maintain assets at the broker/dealer. The support provided may benefit us, but not our clients directly.

We use these types of services provided by broker/dealers to help us in managing and administering client accounts. These include software and other technology that provide access to client account data (i.e. trade confirmations and account statements), facilitate trade executions, provide research, pricing information, and other market data, facilitate in the payment of Portfolio Solutions' fees from client accounts, and assist with back-office functions, record keeping, and client reporting. Portfolio Solutions® places trades for clients' accounts based on our duty to seek best execution and other fiduciary duties. In addition, Portfolio Solutions® periodically reviews the quality of brokerage services provided by broker/dealers which execute trades on behalf of clients, in order to ensure that best execution is being achieved.

Broker/dealers may also provide Portfolio Solutions® with other benefits and services such as client appreciation and educational events, and conferences on regulatory compliance, information technology, and business enterprise development. Broker/Dealers may discount or waive fees it would charge for some of these services or pay all or a part of the fees of a third party providing these services to us. These benefits and services are not a significant consideration for Portfolio Solutions® in requiring clients to use a specific broker/dealer, nor do they result in any material conflicts of interest between Portfolio Solutions® and clients.

As part of our fiduciary duty to clients, we always strive to put the interests of our clients first. Clients should be aware, however, that a potential conflict of interest is created when Portfolio Solutions® receives economic benefits noted herein. This receipt may indirectly influence our recommendation of certain broker/dealers for custody and brokerage services or may influence Portfolio Solutions' choice of a broker/dealer over another broker/dealer that does not furnish similar services, software and systems support.

Generally speaking, all of our clients benefit from research services which may be provided to Portfolio Solutions® by the broker/dealers who effect transactions for client accounts. Not all such research services, however, may be used by Portfolio Solutions® in connection with the client accounts that paid commissions to the broker/dealers providing such research services. In addition, instances may arise where (a) research services obtained in connection with transactions affected for a particular client's account benefit other clients of Portfolio Solutions®, or (b) not all research services may be used by Portfolio Solutions® after payment of commissions by clients. Our receipt of research services from broker/dealers who effect transactions for client accounts does not reduce Portfolio Solutions' customary research activities.

## **Client Directed Brokerage**

While not routine, the client may direct Portfolio Solutions® to use a particular broker/dealer to execute some or all transactions for the client. This brokerage direction must be requested by the client in writing and is only allowed in very limited circumstances. In that case, the client will negotiate terms and arrangements for the account with that broker/dealer, and Portfolio Solutions® will not seek better execution services or prices from other broker/dealers or be able to “batch” client transactions for execution through other broker/dealers with orders for other accounts managed by Portfolio Solutions®. By directing brokerage, the client may pay higher commissions or other transaction costs or greater spreads, or receive less favorable net prices, on transactions for the account than would otherwise be the case. Not all advisors require or allow their clients to direct brokerage. Subject to its duty of best execution, Portfolio Solutions® may decline a client’s request to direct brokerage if, in Portfolio Solutions’ sole discretion, such directed brokerage arrangements would result in additional operational difficulties or not be in the client’s best interest.

### **Aggregation and Allocation of Transactions**

In most cases, Portfolio Solutions® will recommend the purchase or sale of the same security for multiple clients at the same time. In those cases, Portfolio Solutions® may combine buy and sell orders for all clients with the same security transaction order. These are sometimes referred to as “block” transactions. Block transactions are typically done in an effort to get better trade execution across multiple client accounts. Portfolio Solutions® will generally allocate the securities or proceeds arising out of those transactions on an average price basis among the various participants in the transactions. We believe that combining orders in this way will be advantageous to all participating clients.

However, the average price could be more or less advantageous to a particular client than if that client had been the only account affecting the transaction, or if the transaction had been completed before or after the other clients.

Portfolio Solutions® may also place orders for the same security for different clients at different times and in different relative amounts due to, among other things, differences in investment objectives, cash availability, size of order, and practicability of participating in “block” transactions. The level of participation by different clients in the same security may also be dependent upon other factors relating to the suitability of the security for the particular client. There are circumstances when some of a client’s transactions in the security may not be aggregated with those of other clients. Portfolio Solutions® has adopted policies and procedures intended to ensure that Portfolio Solutions® trading allocations are fair to all Portfolio Solutions® clients.

## **Item 13: Review of Accounts**

---

### **Account Reviews**

We review client accounts and positions on a continuous basis. Our Chief Investment Officer supervises the Portfolio Management staff conducting internal daily reviews of client accounts for adherence to a client’s Asset Allocation Strategies.

We assign a financial advisor to each client who will review a client's specific investment goals and objectives on a periodic basis and work with a client to align them with the client's investment strategy. We also offer account reviews directly with a client on an as-requested basis. Clients may choose to receive reviews in person (local in our office), by video-conference, by telephone, or by email. During reviews, we focus on changes to a client's investment plan which can include, but not limited to: a change in the client's investment objectives, general financial situation, tax considerations and significant cash deposits or withdrawals in client accounts.

### **Account Reporting**

Portfolio Solutions® provides written reports detailing performance in client accounts on a quarterly basis. We may also provide additional reporting as agreed upon with the client on a case-by-case basis. In addition, each client receives either a monthly or quarterly statement from their custodian that includes an accounting of all holdings and transactions in the account for the reporting period.

## **Item 14: Client Referrals and Other Compensation**

---

### **Referral Fees**

Portfolio Solutions® does not pay referral fees or any form of remuneration to other professionals when a prospect or client is referred to Portfolio Solutions®.

### **Referrals to Other Professionals**

Portfolio Solutions® may refer clients or prospective clients to unaffiliated professionals for specific needs such as legal, tax, insurance or accounting-related work.

Portfolio Solutions® only refers clients to professionals Portfolio Solutions® believes are competent and qualified in their field. However, it is ultimately the client's responsibility to review the professional's qualifications. Portfolio Solutions® will generally provide the client with the professional's contact information, and it is solely the client's decision whether to hire the professional. Clients are under no obligation to purchase any products or services through these professionals, and Portfolio Solutions® has no control over the services they provide. Clients that choose to hire these professionals will sign a separate agreement with them. Fees charged by these professionals are separate from and in addition to fees charged by Portfolio Solutions®.

If the client desires, Portfolio Solutions® will work with these professionals or the client's other advisors (such as an accountant or attorney) to help ensure that the professional understands the client's portfolio and to coordinate services for the client. Portfolio Solutions® will never share information with an unaffiliated professional unless the client expressly authorizes Portfolio Solutions® to do so in writing.

### **Compensation – Economic Benefits**

As disclosed under Item 12, above, Portfolio Solutions® works with broker/dealers and

may recommend these broker/dealers for custody and brokerage services. There is no direct link between Portfolio Solutions® participation in these programs and the investment advice it gives to its clients, although Portfolio Solutions® receives economic benefits through its participation in the program that are typically not available to retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving investment advisors; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to client accounts); the ability to have advisory fees deducted directly from client accounts; access to an electronic communications network for client order entry and account information; access to mutual funds and some ETF(s) with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to Portfolio Solutions® by third party vendors. Broker/dealers may also have paid for business consulting and professional services received by Portfolio Solutions' related persons.

Some of the products and services made available by broker/dealers may benefit Portfolio Solutions® but may not benefit its client accounts, products or services which may assist Portfolio Solutions® in managing and administering client accounts. Other services made available by broker/dealers are intended to help Portfolio Solutions® serve its clients and its business enterprise.

## **Item 15: Custody**

---

A qualified independent custodian holds clients' accounts and investments. Portfolio Solutions® has limited custody of client funds or securities because clients authorize us to deduct our portfolio management fees directly from their custodial accounts.

Portfolio Solutions® is also deemed to have custody as a result of any standing letters of authorization ("SLOA") which may be in place for the convenience of clients. SLOAs allow Portfolio Solutions® to direct the custodian to send client funds based on the SLOA. Advisers relying on SLOAs to make disbursements on behalf of the client may avoid being subject to certain regulatory examinations, referred to by the SEC as a "surprise asset verification", if each such client provides written instructions to the custodian regarding specific transactions that the client authorizes upon request of Portfolio Solutions® and provides Portfolio Solutions® with written instructions that explicitly describe the transactions. Further, the custodian must verify these instructions when executing each transaction and confirm these instructions at least annually with Portfolio Solutions®. Portfolio Solutions® has no ability change any routing information regarding such disbursements and the client can terminate a SLOA at any time.

Clients will receive statements directly from their custodian monthly or quarterly. The statements will reflect all securities held with their custodian as well as any transactions that occurred in the account, including the deduction of our investment management fee. Clients should review the account statements received from their custodian and should

compare them to the reports they receive from Portfolio Solutions®. Clients can contact us at the address or phone number on the cover of this brochure with any questions about their statements and reports.

## **Item 16: Investment Discretion**

---

Portfolio Solutions® typically has full discretion to decide the specific securities to trade, the quantity of such securities, and the timing of securities transactions for client accounts. Clients grant us this discretionary authority for trading when they sign the IMA. Portfolio Solutions® does not have access to client accounts to withdraw funds, except for debiting its management fee from time to time.

Portfolio Solutions® will not contact clients before placing trades in their accounts, but clients will receive confirmations directly from the broker/dealer and/or their custodian for any trades placed. Clients also give us trading authority over their accounts when they sign their custodian's paperwork. Certain client-imposed conditions may limit our Discretionary Authority, such as when the client prohibits transactions in specific security types.

## **Item 17: Voting Client Securities**

---

### **Proxy Voting**

Portfolio Solutions® accepts and has the authority to vote client proxies pertaining to securities held in a client's account. Each proxy is voted after taking into consideration any contractual obligations, as well as other relevant facts and circumstances. The Firm will not be liable for any failure to vote proxies if the Firm has not received proxies from the issuer or Custodian in sufficient time to act on the proxy. A client may request to vote his/her own proxies by sending a written request to our main office address listed on the cover page of this brochure.

Although it is highly unlikely, it may be possible that Portfolio Solutions® may be called on to vote a proxy in a situation that may cause a conflict of interest. If any vote would cause a possible conflict of interest, we will contact the client for consent prior to casting a vote on behalf of a client.

You can obtain information regarding how the proxies pertaining to the client's account were voted by sending a written request to Portfolio Solutions®.

### **Mutual Funds**

The investment advisor that manages the assets of a registered investment company (i.e. a mutual fund) generally votes proxies issued on securities held by the mutual fund.

### **Class Actions**

Portfolio Solutions® does not instruct or give advice to clients on whether or not to participate as a member of class action lawsuits and will not automatically file claims on

a client's behalf. However, if a client notifies us that he/she wishes to participate in a class action, we will provide the client with any available transaction information necessary to file a proof of claim.

## **Item 18: Financial Information**

---

Portfolio Solutions® does not require or solicit the prepayment of more than \$1,200 in fees per client, six months or more in advance, and does not foresee any financial condition that is reasonably likely to impair our ability to meet our contractual commitments to clients under our IMA. We have never been the subject of a bankruptcy petition.

## **Professional Designation Descriptions**

Portfolio Solutions' supervised persons maintain professional designations, which include the following minimum requirements:

CFA®: The Chartered Financial Analyst® charter is a professional designation established in 1962 and awarded by the CFA Institute. To earn the CFA® charter, candidates must pass three sequential, six hour examinations over two to four years. The three levels of the CFA® Program test a wide range of investment topics, including ethical and professional standards, fixed-income analysis, alternative and derivative investments,

and portfolio management and wealth planning. In addition, CFA® charterholders must have at least four years of acceptable professional experience in the investment decision-making process and must commit to abide by, and annually reaffirm, their adherence to the CFA Institute Code of Ethics and Standards of Professional Conduct.

CFP®: Certified Financial Planner™ certificants must pass the comprehensive CFP® Certification Examination, pass the Certified Financial Planner™ Board of Standard's Fitness Standards, agree to abide by the Board's Code of Ethics and Professional Responsibility and Rules of Conduct which put clients' interests first, and comply with the Financial Planning Practice Standards which spell out what clients should be able to reasonably expect from the financial planning engagement.

CRPC®: Individuals who hold the Chartered Retirement Planning Counselor<sup>SM</sup> designation have completed a course of study encompassing pre-and post-retirement needs, asset management, estate planning and the entire retirement planning process using models and techniques from real client situations. Additionally, individuals must pass an end-of-course examination that tests their ability to synthesize complex concepts and apply theoretical concepts to real-life situations. All designees have agreed to adhere to Standards of Professional Conduct and are subject to a disciplinary process. Designees renew their designation every two-years by completing 16 hours of continuing education, reaffirming adherence to the Standards of Professional Conduct and complying with self-disclosure requirements.

Series 65 License: A Series 65 Uniform Investment Adviser Law license qualifies a representative to act as an investment adviser and receive a fee.

Series 66 License: A Series 66 Uniform Combined State Law license qualifies an individual to be both an "agent" of a broker/dealer and an "investment adviser" representative in each state.

**FACTS** **WHAT DOES PORTFOLIO SOLUTIONS® DO WITH YOUR FINANCIAL INFORMATION?**

**Why?** Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.

**What?** The types of personal information we collect and share depends on the product or service you have with us. This information can include:

- Social Security number and income
- Account balances and assets
- Transaction history

**How?** All financial companies need to share customers’ personal information to perform their services and run their everyday business. In the section below, we list the reasons financial companies can share their customers’ personal information; the reasons Portfolio Solutions® chooses to share; and whether you can limit this sharing.

<b>Reasons we can share your personal information</b>	<b>Does Portfolio Solutions® share?</b>	<b>Can you limit this sharing?</b>
<b>For our everyday business purposes—</b> such as to process your transactions, maintain your account(s) or respond to court orders and legal investigations	Yes	Yes
<b>For our marketing purposes—</b> to offer our products and services to you	Yes	Yes
<b>For joint marketing with affiliates</b>	Yes	Yes
<b>For joint marketing with non-affiliates</b>	No	We don’t share
<b>For our affiliates’ everyday business purposes—</b> information about your transactions, accounts, etc.	Yes	Yes
<b>For our non-affiliates’ everyday business purposes—</b> information about your transactions, accounts, etc., as necessary	No	We don’t share
<b>For our affiliates to market to you</b>	Yes	Yes
<b>For our non-affiliates to market to you</b>	No	We don’t share

**Questions?** Call (248) 689-1550

## Who we are

### Who is providing this notice?

Portfolio Solutions®  
900 Wilshire Drive, Suite 200  
Troy, MI 48084

## What we do

### How does Portfolio Solutions® protect my personal information?

To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards (such as password protection or encryption) and restricting access to physical files (such as locked cabinets or building).

### How does Portfolio Solutions® collect my personal information?

We collect your personal information, for example, when you:

- Open an account
- Seek advice about your investments
- Enter into an investment advisory contract
- Provide us with information about your investment or retirement portfolio or earnings

### Why can't I limit all sharing?

Federal law gives you the right to limit only:

- Sharing for affiliates' everyday business purposes
- Affiliates from using your information to market to you
- Sharing for non-affiliates to market to you

State laws and individual companies may give you additional rights to limit sharing.

### What happens when I limit sharing for an account I hold jointly with someone else?

Your choices will apply to everyone on your account – unless you tell us otherwise.

## Definitions

<b>Affiliates</b>	<p>Companies related by common ownership and/or control. They can be financial and nonfinancial companies.</p> <ul style="list-style-type: none"><li>• We do share with our affiliates.</li></ul>
<b>Non-affiliates</b>	<p>Companies not related by common ownership and/or control. They can be financial or nonfinancial companies.</p> <ul style="list-style-type: none"><li>• We do not share with non-affiliates so that they can market to you.</li><li>• We may/may not share information about your accounts and transactions with non-affiliates (attorneys, accountants, and other business professionals), as necessary</li></ul>
<b>Joint marketing</b>	<p>A formal agreement between non-affiliated financial companies that together market financial products or service to you.</p> <ul style="list-style-type: none"><li>• We do jointly market with affiliates.</li><li>• We do not jointly market with non-affiliates.</li></ul>

FORM CRS – CUSTOMER RELATIONSHIP SUMMARY  
 June 16, 2020

<p>Item 1. <u>Introduction</u></p>	<p>Portfolio Solutions, LLC is registered with the Securities and Exchange Commission (SEC) as an investment adviser. Brokerage and investment advisory services and fees differ, and it is important for you to understand these differences. Free and simple tools are available to research firms and financial professionals at <a href="https://investor.gov/CRS">Investor.gov/CRS</a>, which also provides educational materials about broker-dealers, investment advisers, and investing.</p>
<p>Item 2. <u>Relationships and Services</u></p>	<p><b>What investment services and advice can you provide me?</b>          We offer investment advisory services to retail investors, including Wealth Planning and Investment Guidance to individuals, high net worth individuals, trusts, estates, endowments, institutions, individual participants of retirement plans, pension and profit-sharing plans, charitable organizations, corporations and other businesses.</p> <p><b>Monitoring</b>          We review client accounts and positions on a continuous basis. Our Chief Investment Officer supervises the Portfolio Management staff who conduct internal daily reviews of client accounts for adherence to a client’s Asset Allocation Strategies. A financial advisor will also review a client’s specific investment goals and objectives on a periodic basis and work with a client to align them with the client’s investment strategy.</p> <p><b>Investment Authority</b>          We typically have full discretion to decide the specific securities to trade, the quantity of such securities, and the timing of securities transactions for client accounts. Certain client-imposed conditions may limit our Discretionary Authority, such as when the client prohibits transactions in specific security types.</p> <p><b>Limited Investment Offering</b>          We reserve the right to advise clients on any type of investment that we deem appropriate based on the client’s stated goals and objectives. We may also provide advice on any type of investment held in a client’s portfolio at the inception of the advisory relationship or on any investment on which the client requests advice.</p> <p><b>Account Minimums and Other Requirements</b>          Generally, we require clients to maintain a Client Relationship size of at least \$500,000 for Investment Guidance with Portfolio Management services, and \$750,000 for Wealth Planning with Portfolio Management. Under certain circumstances, minimum account sizes may be negotiable.</p> <p><b>More information</b> about our services can be found on Part 2 of our Form ADV, which is available at <a href="https://adviserinfo.sec.gov/firm/summary/107774">https://adviserinfo.sec.gov/firm/summary/107774</a>.</p> <p><b>Conversation Starters.</b> Ask your financial professional—</p> <ul style="list-style-type: none"> <li>• <b>Given my financial situation, should I choose an investment advisory service? Why or why not?</b></li> <li>• <b>How will you choose investments to recommend to me?</b></li> <li>• <b>What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?</b></li> </ul>
<p>Item 3.a. <u>Fees, Costs, Conflicts, and Standard of Conduct</u></p>	<p><b>A. What fees will I pay?</b>          Our standard annual fee is charged quarterly in arrears, and is 0.89% for Wealth Planning with a minimum quarterly fee of \$1,675, and 0.37% for Investment Guidance with a minimum quarterly fee of \$925. The fee charged is generally determined by the amount of investable assets, with discount tiers available at various higher asset levels. Under certain circumstances, fees may be negotiable. More information about our firm’s fees are included in Part 2 of Form ADV: <a href="https://adviserinfo.sec.gov/firm/summary/107774">https://adviserinfo.sec.gov/firm/summary/107774</a>.</p>

FORM CRS – CUSTOMER RELATIONSHIP SUMMARY

	<p>In addition to our management fees, clients may incur certain charges imposed by custodians, brokers, and other third parties. Mutual funds and exchange traded funds also charge management fees, which are disclosed in a fund’s prospectus.</p> <p>We do not charge performance-based fees.</p> <p><b>You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.</b></p> <p><b>Conversation Starter.</b> Ask your financial professional—</p> <ul style="list-style-type: none"> <li>• <b>Help me understand how these fees and costs might affect my investments. If I give you \$500,000 to invest, how much will go to fees and costs, and how much will be invested for me?</b></li> </ul>
<p>Item 3.b. <u>Fees, Costs, Conflicts, and Standard of Conduct</u></p>	<p><b>B. What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?</b></p> <p><i><b>When we act as your investment adviser,</b></i> we must act in your best interest and not put our interest ahead of yours. Below is an example of where conflicts could arise. You should understand and ask us about such conflicts because they can affect the investment advice we provide to you.</p> <ul style="list-style-type: none"> <li>• We may receive from certain broker/dealers, at no cost, products and services enabling us to better manage and administer client accounts. The support provided may benefit us, but not our clients directly. This receipt of services may indirectly influence our choice of a broker/dealer over another broker/dealer that does not furnish similar services.</li> </ul> <p><b>Conversation Starter.</b> Ask your financial professional—</p> <ul style="list-style-type: none"> <li>• <b>How might your conflicts of interest affect me, and how will you address them?</b></li> </ul> <p><b>More information</b> about conflicts of interest between us and our clients is available on Part 2 of our Form ADV, which can be found at <a href="https://adviserinfo.sec.gov/firm/summary/107774">https://adviserinfo.sec.gov/firm/summary/107774</a></p> <p><b>How do your financial professionals make money?</b> Our financial professionals receive a salary and may receive a discretionary bonus.</p>
<p>Item 4. <u>Disciplinary History</u></p>	<p><b>Do you or your financial professionals have legal or disciplinary history?</b></p> <p style="text-align: center;"> <b>Yes</b> <input type="checkbox"/> <span style="margin-left: 200px;"><b>No</b> <input checked="" type="checkbox"/></span> </p> <p>Visit <a href="http://Investor.gov/CRS">Investor.gov/CRS</a> for a free and simple search tool to research us and our financial professionals.</p> <p><b>Conversation Starter.</b> Ask your financial professional—</p> <ul style="list-style-type: none"> <li>• <b>As a financial professional, do you have any disciplinary history? For what type of conduct?</b></li> </ul>
<p>Item 5. <u>Additional Information</u></p>	<p><b>Additional information about our services</b> can be found at <a href="http://www.portfoliosolutions.com">www.portfoliosolutions.com</a>. If you have any questions about the contents of this brochure or would like to request a copy of this relationship summary, please contact us at 800-448-3550 or <a href="mailto:info@portfoliosolutions.com">info@portfoliosolutions.com</a>.</p> <p><b>Conversation Starter.</b> Ask your financial professional—</p> <ul style="list-style-type: none"> <li>• <b>Who is my primary contact person? Is he or she a representative of an investment-adviser or a broker-dealer? Who can I talk to if I have concerns about how this person is treating me?</b></li> </ul>
